

CHINA VENEZUELA CHAMBER OF COMMERCE AND INDUSTRY

A real bridge between Venezuela and the world's second-largest economy

CCICV is the binational platform connecting Venezuelan businesses with the Chinese market — with shared governance, verifiable identity, and a digital platform that already works today, not a promise. Here we show what we built, why China matters for your business, and how to join in minutes.

WHO WE ARE

A business support hub, with shared governance

We are an information and business-support hub for Venezuelan and Chinese companies with bilateral ties. Under the Embassy's coordination and guidance, we act as the central service platform between both governments and their businesses — with a binational board on equal footing, not a one-sided club.

POSITIONING

An all-weather strategic partnership between China and Venezuela, with a solid political base for commercial cooperation.

OBJECTIVE

A forum for trade exchange, international investment, and policies that facilitate operations for companies from both countries.

PRINCIPLES

Respect for sovereignty and non-interference in internal affairs — focused on training, outreach, and binational trade promotion.

WHY CHINA, NOW

The economy redefining entire industries fastest

For those who don't follow the Chinese economy closely, these are public, verifiable figures — not optimistic projections.

\$19.5T

World's 2nd-largest economy

2025 GDP (~¥140.2T), +5.0% growth, ~30% of the world's economic growth that year.

30%

of world manufacturing value

World's #1 manufacturing power for 16 consecutive years — roughly one in three manufactured goods on Earth.

+2.5M

electric vehicles exported in 2025

A record figure. BYD overtook Tesla as the world's largest EV maker.

~50%

of the planet's wind + solar capacity

641 GW wind + 1,200+ GW solar installed — more than the rest of the world combined.

WHY CHINA, NOW (CONTINUED)

Infrastructure, regional investment, and the opportunity for Venezuela

50,000 km

of high-speed rail

More high-speed rail than the rest of the world combined.

\$210,000M

invested in Latin America (Belt and Road)

Since the initiative launched; over 600,000 local jobs created.

800M

people lifted out of extreme poverty

Over 40 years — about 75% of all global extreme-poverty reduction.

\$6,526.8M

trade with Venezuela in 2025

+1.9% vs 2024. The rise of non-oil trade opens real room for more Venezuelan companies.

Sources: China Briefing and Chinese government data (GDP); Chinese government and UNIDO estimates (manufacturing); CNBC, InsideEVs, IEA Global EV Outlook (electric vehicles); Global Energy Monitor, Statista, Ember (renewable energy); Global Times, SCMP (high-speed rail); Inter-American Dialogue (Belt and Road); World Bank (poverty reduction); CVEChina.org and Banca y Negocios (bilateral trade). Public figures as of late 2025 / early 2026.

REAL GOVERNANCE

A binational council, on equal footing

The Chamber operates under a dual-block system (China and Venezuela) that guarantees equal rights and joint decision-making — it is neither a Chinese entity operating in Venezuela, nor the reverse.

CHINESE TEAM — THE SOLID BACKING

Connects policy dividends, industrial clusters, and supply networks — solving resource and strategic-direction problems at the source.

VENEZUELAN TEAM — THE TRUSTED GUIDE

Masters local commercial law and government relations, protecting stable operations and clearing cultural barriers.

CONCRETE ACHIEVEMENTS

New direct China-Venezuela maritime route

IN EFFECT SINCE NOVEMBER 2025

The vessel De Xin Yi Da directly connects the port of Tianjin with Puerto Cabello and La Guaira, with no transshipment in a third country. It is the first direct container shipping line between both nations, substantially cutting logistics time and cost for bilateral trade.

BEFORE — VIA TRANSSHIPMENT

Tianjin → EE.UU. / México / Panamá
→ Venezuela

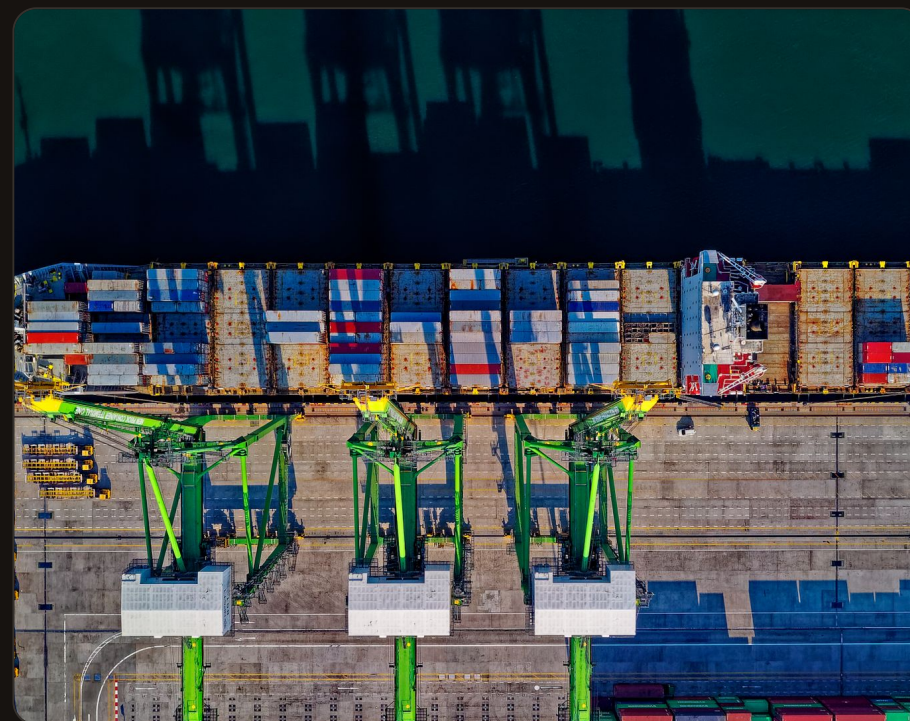

~90 days

NOW — DIRECT ROUTE

Tianjin → Puerto Cabello / La Guaira

20–30 days
(estimated)

BILATERAL LEGAL FRAMEWORK

Investment Protection Agreement

China and Venezuela officially signed the Investment Promotion and Protection Agreement — a stable, transparent legal framework for business cooperation.

REAL PRESENCE, NOT JUST NUMBERS

Major Chinese companies already here

PetroChina has a long-standing presence in the Orinoco Belt; Foton runs its own assembly plant; JAC Motors produces 50 vehicles a day in Venezuela, with 16 dealerships.

THE PLATFORM, TODAY

What every company finds in their dashboard

Once logged in, an affiliated company has direct access to four tools — not a static form, but a dashboard that reflects its real status in real time.

KYC verification status

Document-by-document tracking: approved, rejected (with a specific reason), or pending — no need to call or write to ask.

Membership payment in USDT

Payment instructions generated instantly, with automatic deposit detection on the TRC20 network — no proof of payment to email.

Downloadable PDF certificate

The same certificate that verifies online, ready to print or attach to business proposals and tenders.

Direct service requests

Matchmaking events, sector reports, trade missions — requested with one click, followed up personally by a staff member.

THE PLATFORM, TODAY

Verification in every context

EVENT CREDENTIAL

Presented straight from the phone

Printable if preferred, but designed to be shown on screen, with a live-verification QR code.

COMPANY DASHBOARD — EMBEDDABLE BADGE

Embeddable badge

Every active company copies an HTML snippet and pastes it into their own website. Any visitor who clicks it lands directly on the certificate's public verification page.

Chinese names print correctly on certificates, credentials, and each company's native-script name — the system fully supports Chinese characters end to end.
